Dear Attorney General Ashcroft:

I have been following this Micro Soft case since the government originally went after them and for the life of me can't see us continuing to spend tax dollars pursuing something that in my opinion should never have gone as far as it has. The other complaining Companies are doing well in the market place and I believe Micro Soft is being penalized unfairly for being too successful. Let's put an end to this and settle it the way it has been proposed and get along with other business that has some real meaning to our country like Terrorism, our Economy and a hundred other things that would make better use of our resources as a nation. I think you personally have done a great job since taking over your present position and I just urge you to concentrate on those things that have meaning for the majority of American and get this Micro Soft business behind us.

Thank your,
